

Safe Touching

Write-Ink For Anyone Who Works Around Minors

Kids are kids and depending on their age, they will always be bumping up against you, getting within your personal space and generally being who they are supposed to be. With the current taboos surrounding this area many teachers, especially male teachers, are confused about this subject and many have stated that there is always the spectre of distrust present when they are around kids.

This seminar openly discusses the question of touch. And, more importantly it explores the 6 vital ways of keeping yourself safe and immune from accusation or innuendo—ever. One stray comment made by a student in anger or vilification and a whole career is lost. Never let this happen to you.

For Anyone Who Works With and Around School Students:

Be comfortable with who you are around students. Know that you have taken the steps necessary to protect yourself in all situations. This is about creating a safe, flexible, supportive learning environment for students free of fear of any kind.

This seminar is a must for all new teachers, experienced teachers needing a refresher and anyone who feels they need some more information to protect themselves and the students.

Cost:

\$125* per person. Includes Morning Tea, Notes, ebooks.

*\$85 per person for more than one participant per school.

Certificate of Attainment presented upon completion.

A Not To Be Missed Session.
